Conrad

(c) a step of irradiating desired areas of the film formed on the rear plate with light;

(d) a step of patterning the film; and

(e) a step of baking the patterned film to form a plurality of wires connected to the electrodes. --.

#### REMARKS

Claims 1-14 are pending in this application, with Claims 1, 10 and 14 being independent. By this Amendment, Applicant has amended the specification and Claim 13, to attend to formal matters. The changes in the specification are made to correct clerical errors and maintain consistency throughout the specification. No new matter has been added. Applicant has also added new Claim 14 to provide an additional scope of protection.

Accompanying this Amendment is a Request for Approval to Amend the Drawings. The changes to the drawings also attend to formal matters. Applicant requests favorable consideration thereof.

Applicant submits that this application is in condition for allowance and respectfully requests a notice thereof.

Applicant's undersigned attorney may be reached in our Washington office by telephone at (202) 530-1010. All correspondence should continue to be directed to our below-listed address.

Respectfully submitted,
